

Stardust Villa

Friendship Bay - Bequia
St. Vincent & the Grenadines

0.31 Acre

\$825,000 US

Unobstructed bay views from a charming colonial hillside villa. 4 separate bedroom suites, open plan living area and elegant pool with sundeck & elevated gazebo.

- Stunning Elevated Position
- Stroll to Friendship Bay Beach
- 30' Central Swimming Pool

4 Separate Bedroom Suites

The 4 separate sleeping areas are each located around the central living space offering all the amenities at close hand but an additional degree of privacy. All air-conditioned and designed in a traditional caribbean colonial style the bedrooms allow guests a private serene sleeping space set amongst fragrant and relaxing tropical woodland.

The 4 bathrooms each have hot-water-on-demand showers, although the 4th bathroom is not en suite and a brief distance from the 4th bedroom. Stardust Villa is a popular rental property on the island due to its location, degree of comfort and well equipped interior.

Swimming Pool & Exterior Features

The magnificent 30' central swimming pool is surrounded by a decked area ideal for enjoying a sundowner from a hammock or sun lounger. An elevated gazebo provides another stunning viewing point for the exterior of this charming and spacious villa.

The walls and pathways have been built using local stone. A gate at the rear of the villa, set into the woodland; a short 10 minute walk down to the beautiful golden sandy Friendship Bay Beach.

Friendship Bay

Perched above Friendship Bay, Stardust Villa is located in a quiet residential area, with the rugged fields of Point St. Hillary out at the back and a short path walk down to the beautiful beach below. The horseshoe of fine white sand of Friendship Bay is perfect for diving, swimming and snorkeling.

Hills encircle this fertile valley which opens to a beautifully long sweep of beach with southern views to Mustique and Bequia's southern Cays.

Well connected by road to Admiralty Bay over the ridge. Friendship Bay enjoys a quietly established atmosphere with a great blend of local character and world class accommodation on this protected palm fringed bay.

Traditional Plantation Style Villa

Stardust Villa has been designed in a traditional plantation style with 4 independent sleeping areas positioned close by but apart from the large open plan central living space and swimming pool. One of the units has been built in the style of a watchtower and provides an elevated viewing position across the bay.

The turquoise rooftops, white wooden balcony rails and pale terracotta exteriors of this villa perched upon the hillside make this property appear to be a natural part of the Bequian landscape.

This unique layout offers opportunities for a larger group to enjoy dining and relaxing together with that additional degree of privacy. The elevated position, wide window design, outside decking and swimming pool all provide unparalleled views over to Mustique and the uninhabited islands of Baliceaux and Battowia.

The wooden white handrails of the balconys that surround the property appear to frame the classic caribbean views of the endless sky, lush woodland, palm fronds and turquoise ocean.

Central Open Plan Living

A broad open plan living and dining space, surrounded by wide windows and doors that open onto the exterior decking allowing guests to enjoy an excellent outdoor BBQ and dining area.

The wood used throughout this residence lends a warmth and natural connection to the tropical vegetation that surrounds the villa.
